

FREQUENTLY-ASKED QUESTIONS (FAQ)

1. Is there a requirement to refer others to be a participant in this program?

A **common question** people often ask is: "Can I be totally passive here or do I have to refer others in order to participate and be successful?" The simple Answer is No- you cannot be passive and be successful; this is an active participation program. As this program uses a 2x2 matrix design, in order to be successful, each person refers at least 2 people who join. That way, the 2x2 matrix a person is in quickly gets filled, the person at the top receives 4 payments and they automatically get put at the top of a new matrix to repeat the process all over again. Also, as this program uses a true follow-me design (i.e., each person always follows their Sponsor in the matrices), the more people you sponsor, the more people you have following you and the more money you make. It could not get any simpler than that!

2. What type of cash flow model does this program use?

Gift1Get4 is a Global Crowdfunding Platform having several unique aspects. People who willingly join our community give one monetary gift to help another individual with their personal projects and needs and, in turn, via our 2x2 matrix design, they receive four monetary gifts. This occurs at three Levels of participation, \$100, \$250 and \$500, in a never-ending cycle.

Additionally, our members receive many valuable products and services, such as Shopping Card Certificates for savings on retail products and at restaurants, grocery stores, movie theaters, and hotels. Further, members also get a plethora of useful tools, systems and marketing and training resources. For example, as soon as someone joins, they get 1,000 leads and are put in a leads rotator; they are given capture pages and a high-tech tracking system for all of their prospects; there is a special Training Area in the member's back office, providing training in getting started successfully, in how to download and use the Savings Certificates, and in how to employ various marketing strategies. All of these savings, tools, resources and training are at no additional cost to the members, making this truly the very best member-focused program in the industry today. In short, we are a caring, global community of people who joyfully support each other in meeting today's economic challenges and attaining financial stability in their lives.
